Subject: Application for a BTS SIO internship

Dear Sir, Dear Madam,

Currently a student in BTS Services Informatiques aux Organisations, I'm looking for an internship that would enable me to put my technical skills into practice and deepen my knowledge in the IT field.

Passionate about information technologies and their impact on organizations, I have acquired skills in application development, database management and systems administration. My studies have also enabled me to work on group projects, which has taught me the importance of collaboration and communication within a team.

I'm particularly motivated by the idea of joining a dynamic company where I can learn from experienced professionals. I'm convinced that this internship will enable me to develop my skills while bringing my rigor, curiosity and ability to adapt to new environments.

I am at your disposal for an interview to discuss my motivations and aspirations. I thank you in advance for your consideration of my application and look forward to contributing to your projects.

I look forward to hearing from you.

FRANCES—LAVILLAUIROY Mathis
